

ACADEMIC READING & WRITING

WEEK 11

By Ms Syeda Hamna Jafri

WHAT IS FYDP?

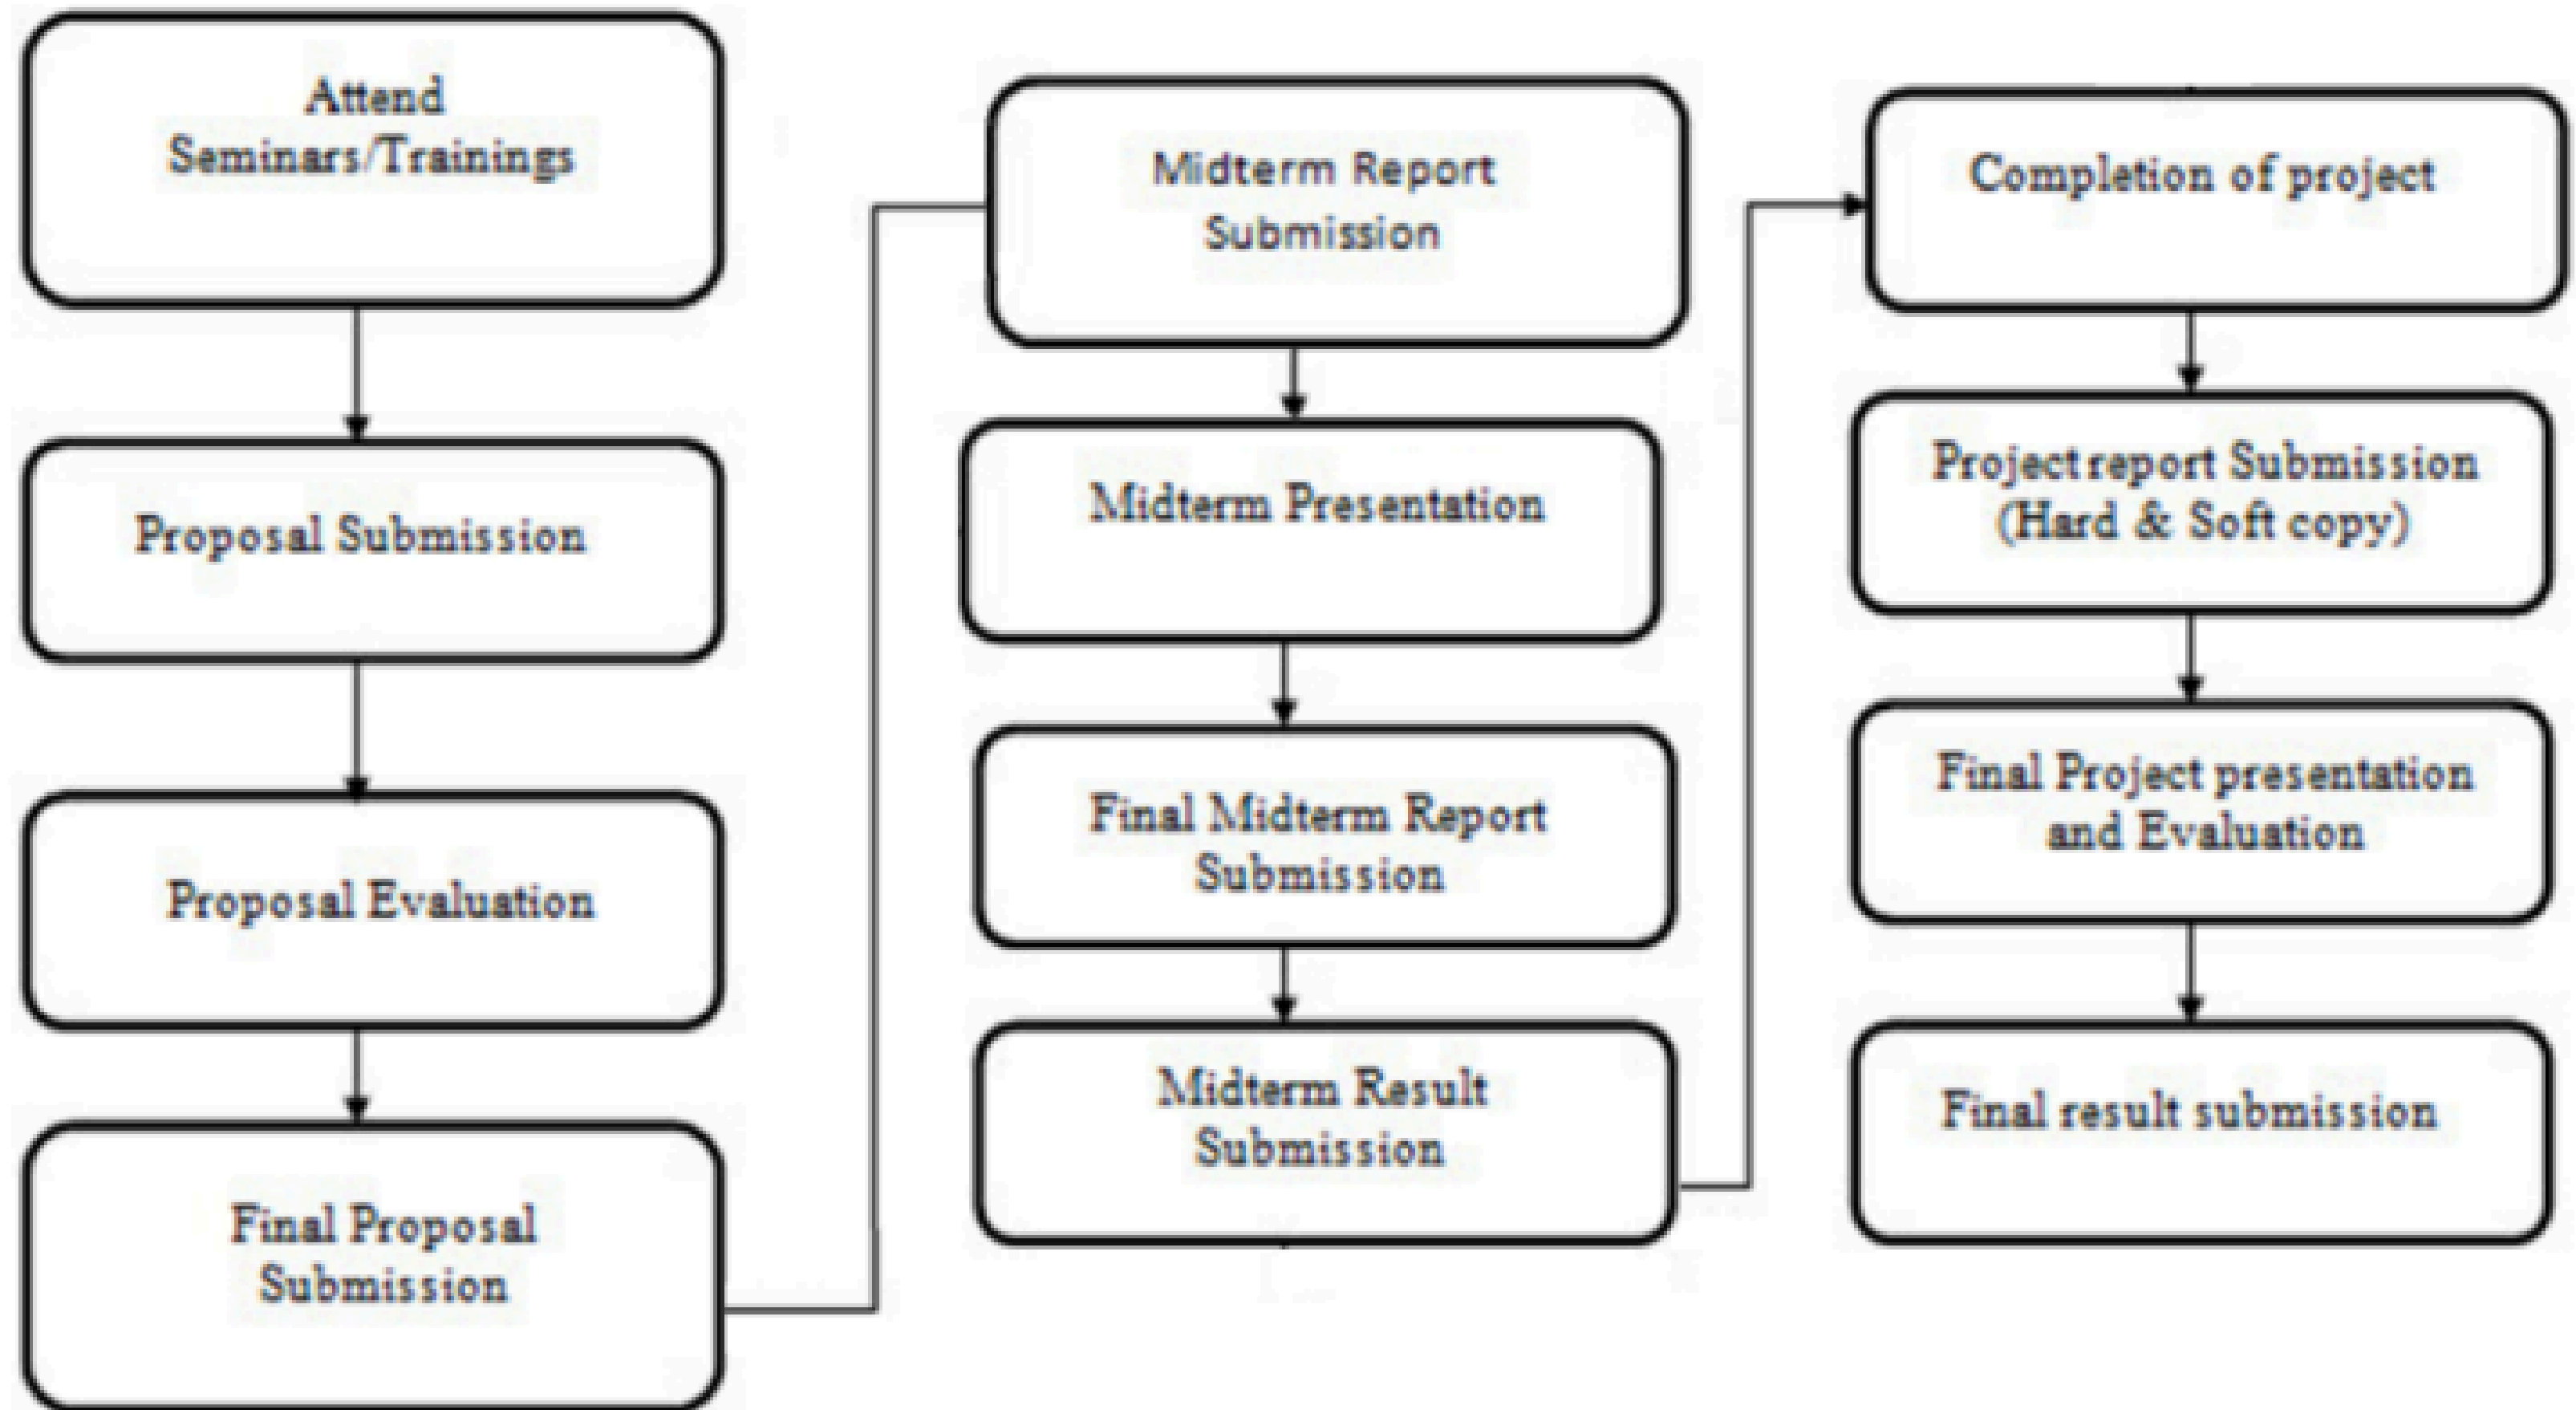

Final Year Design Project (FYDP) is assigned to solve a “complex problem” based on the knowledge and skills gained during the 7th semester of the program which continues in eighth semester. Purpose of the FYDP is to provide each student the opportunity to experience the engineering design process in the context of a topic related to the curriculum.

WHAT IS FYDP?

A comprehensive “Plan of Action” has been developed to assign projects to the students, track, evaluate and assess the projects. Detailed guidelines are available on departmental website. Students must prepare and submit the FYP reports as per uniform format, for facilitation, templates are available. The projects can be undertaken in small groups consisting of not more than five members.

FYDP REPORT

The FYDP report records all actions/services performed within the project and compares them with the originally agreed scope of services. It not only describes the achieved result and its successful solution, but provides a detailed backdrop of the field of study chosen and a comprehensive overview of the research conducted.

FYDP CONTENTS

- Introduction
- Objective
- Research Questions
- Literature Review
- Research Design
- Data Collection & Analysis
- Key Findings
- Discussion
- Conclusion
- Recommendations

RESEARCH QUESTIONS

1 How do small businesses implement digital marketing strategies?

2 What impact do these strategies have on business growth metrics?

Literature Review

The section where you summarize and discuss past research on your topic. It shows what others have already said and where your research fits in.

RESEARCH DESIGN

Quantitative

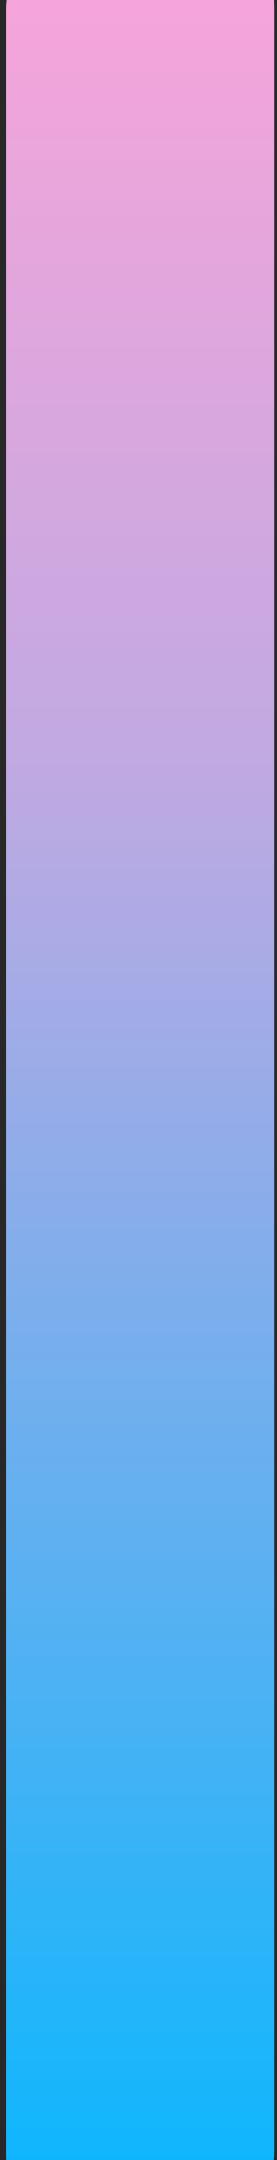

Case Study Approach

Qualitative

Ethnographic

Mixed-Methods

Experimental Study

DATA COLLECTION & ANALYSIS

Data Collection

Online survey of 100 small business owners
In-depth interviews

Data Analysis

Statistical tools for survey data
Thematic analysis for interviews

CONSIDER THE FOLLOWING

There are certain factors you must consider before opting for a research topic. These are:

- Interest
- Time
- Budget
- Available Resources
- Relevance in Context
- Novelty

THANK YOU
